DEMOLITION HAMMER- GLANCE

- Power: 15 Amps
- Impact Energy: 41 Joules
- Blows per Minute (BPM): 1,000
- Tool Holder: 1-1/8" Hex
- Weight: 41 lbs
- Vibration Control: SHOCKS Active Vibration Control system
- Motor Type: Brushless
- Wireless Tool Control:
Compatible with DEWALT's Wireless Tool Control system
- Included Accessories: Hammer truck, bull point chisel, 1" cold chisel

DEMOLITION HAMMER

High Impact Energy: Efficiently handles heavy-duty demolition tasks

Advanced Vibration Control: Reduces user fatigue and increases comfort

Brushless Motor: Enhances efficiency and requires less maintenance

Wireless Tool Control: Offers seamless integration with DEWALT's dust extraction system

Durable Construction: All-metal housing ensures longevity

FEATURES

Model No.	D25966K
Tool Holder	28mm Hex
Impact Energy (EPTA)	41 joules
No-Load BPM	1080
Battery Voltage	N/A
Weight	18.8
Input Power	1800
Length	770mm
Vibration Control	Yes
Vibration Value	6.8m/s ²
Wireless Tool Control	Yes
Brushless Motor	Yes

Soft Rubber Grip
More Tactile
Easier to grip

Removeable Side Handles
Narrower profile
Easier manoeuvrability in trenches

Easily accessible cord set
Reduced effort needed to replace it
Less downtime, reduced service costs

Simple ON/OFF Switch
Easy to actuate, better protected
Improved usability and durability

Floating Mechanism
Low vibration
Longer trigger times

150-hour service interval
Reduced maintenance
Less downtime

Brushless Motor
Increased efficiency, compact size
Increased power and productivity

41J Impact Energy
Pavement breaker performance
Huge productivity

Reduced size & weight HEX Tool Holder
28mm HEX fitment in a 30mm HEX design
Reduced size and weight, increased visibility

DEMOLITION HAMMER

DEWALT heavy duty demolition hammers are engineered for demanding tasks where breaking tough materials is required. On construction and renovation sites, these tools are commonly used for:

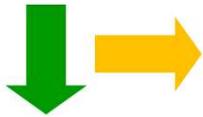

- **Demolishing concrete slabs, walls, and floors**
- **Breaking up asphalt for roadwork or repairs**
- **Removing tiles and stone flooring**
- **Trenching in hard ground for utilities or landscaping**

These hammers deliver controlled, powerful impacts, making them ideal for both large-scale demolition and smaller renovation jobs. Whether you're working with brick, stone, or reinforced concrete, DEWALT demolition hammers are designed to help professional users work efficiently and safely.

- **Durability:** Features a robust brushless motor for long-lasting performance.
- **Performance:** Delivers 41 Joules of impact energy for powerful breaking. Matching productivity of traditional pavement breakers.
- **Ergonomics & Protection:** Floating mechanism and soft rubber grips reduce vibration and fatigue. Removable side handles for improved control and comfort.
- **Wireless Tool Control:** Integrated on all models for seamless dust extractor operation.

DEMOLITION HAMMER

Vertical Horizontal

Users

- Utilities
- Concrete Construction
- Demolition & Repair
- General Builders
- Landscaping/Fencing
- Patio/Driveways
- Railways

Applications

- Mainly for vertical (downwards) breaking applications
- Breaking concrete floors
- Breaking old patios
- Breaking pathways
- Foundation inspection
- Concrete Repair
- Removing old fence posts
